Summary

AI Engineer with hands-on experience building **LLM-powered conversational applications** using **Python, FastAPI, Google ADK, and Model Context Protocol (MCP)**. Worked on **Retrieval-Augmented Generation (RAG)**, agentic AI workflows, backend API development, and React-based frontend integration for enterprise AI solutions. Strong foundation in **Python, REST APIs, MongoDB**, and AI system design with experience delivering production-oriented features in Agile teams.

Education

Thanthai Periyar Government Institute of Technology, BE in Electronics and Communication
Nov 2021 – June 2025

- CGPA: 7.8/10

Experience

AI Engineer Intern, Nimir Corporation
Apr 2026 – Present

- Developed AI-powered conversational applications using **Python, FastAPI, Google ADK, and Model Context Protocol (MCP)**.
- Built **MCP tools** for menu search, cart management, event planning, quotation, and recommendation workflows.
- Implemented **Retrieval-Augmented Generation (RAG)**, **LLM tool orchestration**, and **MongoDB-backed** multi-turn conversations.
- Integrated **React** frontend with AI backend services and developed automated testing using **Pytest**.
- Collaborated in Agile teams using **Git, Jira**, and modern AI development workflows.

Backend Developer Intern, WoowLocal Technology Pvt Ltd – Tirunelveli, India
Dec 2025 – Mar 2026

- Developed **REST APIs** using **Django REST Framework**.
- Implemented **JWT authentication** and secure user management.
- Integrated backend services with frontend applications.
- Worked with **MySQL, Postman, and Git** for development and testing.

Projects

Smart Attendance System Using Face Recognition

- Built an AI-powered attendance system using **YOLO, ArcFace**, and blink detection.
- Integrated **Supabase** with **Python** for real-time attendance management.
- Achieved face recognition under **350 ms** with high accuracy.

Task Management Web Application

- Developed **REST APIs** using **Django REST Framework** with **JWT authentication**.
- Implemented secure **CRUD** operations with **PostgreSQL**.
- Integrated backend APIs with a web frontend.

Skills

Languages: Python, C, SQL

Generative AI: LLMs, Google ADK, MCP, Retrieval-Augmented Generation (RAG), Prompt Engineering

Backend: FastAPI, Django REST Framework, Flask, REST APIs

Frontend: React, TypeScript, JavaScript, HTML, CSS

Database: MongoDB, PostgreSQL, MySQL, Supabase

Tools: Git, GitHub, Postman, Pytest, VS Code, Cursor, Playwright
